ABOUT ME:

4+ years of experience crafting high-performance, scalable web applications with **React, Next.js, TypeScript, and Angular**. Specialist in developing reusable component architectures, optimizing performance, and integrating RESTful APIs. Focused on writing clean, maintainable code and delivering reliable solutions in agile environments, with a strong interest in continuously adopting modern web technologies.

PROFESSIONAL DETAILS:

- **Golden Harvest InfoTech Ltd.**
  Software Engineer (April 2024 to present.)
  Assistant Software Engineer (April 2023 to March 2024)
  Junior Software Engineer (February 2022 to March 2023)
  Intern (October 2021 to January 2022)
  Key responsibilities:
  - Developed web applications using **React.js, Next.js, and Angular**, focusing on scalability and performance.
  - Designed reusable, modular UI components following clean architecture principles.
  - Optimized application performance by improving rendering efficiency and API interactions, resulting in faster load times.
  - Integrated RESTful APIs and collaborated closely with backend teams to ensure seamless data flow.
  - Implemented responsive, user-centric interfaces based on business requirements.
  - Conducted code reviews (PR reviews) to maintain code quality and consistency.
  - Performed unit and component testing, debugging, and maintenance to ensure stable releases.

SKILLS:

- **Frontend**: React, Next.js, Angular, TypeScript, JavaScript (ES6+), HTML5, CSS3, Bootstrap, Tailwind CSS, Material UI.
- **State Management:** Redux, Context API.
- **APIs:** REST APIs, GraphQL (familiar with concepts and basic integration).
- **Authentication & Authorization:** JWT, RBAC, ABAC.
- **CMS:** WordPress (Headless), Strapi.
- **Tools:** Git, GitHub, VS Code, Figma, Postman, Swagger, Browser Developer Tools.
- **AI-assisted development:** Cursor, Claude Code, GitHub Copilot.

PROJECTS:

- **MHS - Memorial Houston Medical**

  Overview: An enterprise-grade healthcare management platform built on **microservices** architecture. Played a primary development role in the platform's most critical modules including Auth, Electronic Health Records (EHR), Patient Information System (PIS), and User Information System (UIS), ensuring secure role-based access and efficient management of users, patient records, and hospital operations.

  Tech Stack: Next.js, FastAPI, Spring Boot, PostgreSQL, Material UI, Tailwind CSS.

- **ECOMILLI**

  Overview: A multi-module web platform, centered on the vision of eco-friendly, sustainable, and affordable living. The system integrates **a multivendor e-commerce store, a community interaction hub, a podcast platform, and a resource-sharing module** into a single ecosystem. Designed to connect eco-conscious users and vendors, the platform promotes environmental awareness through a seamless, high-performance interface.

  Tech Stack: React, Next.js, Spring Boot, WordPress (Headless CMS), MySQL, Bootstrap, Material UI.

- **Curation Keying Audit Portal - Family Search**

  Overview: An audit and monitoring portal developed for **FamilySearch International**, the world's largest genealogy organization, managing over 8 billion historical records across 140 countries. The system was engineered to handle millions of genealogical records, track data changes with precision, and generate detailed compliance reports to ensure data accuracy and transparency at scale.

  Tech Stack: Angular, Spring Boot, FastAPI, PostgreSQL, Bootstrap, JasperReports.

- **Nippon Middleware**

  Overview: Web-based middleware application developed for **NIPPON Express Bangladesh** to manage shipment bookings and facilitate seamless communication with **Inditex** systems.

  Tech Stack: Angular, Spring Boot, MySQL, Bootstrap, Angular Material.

- **BSCL Billing System**

  Overview: A national-scale billing and revenue management system for **Bangladesh Satellite Company Limited (BSCL)**, managing financial operations for all national TV channels and broadcasters. Played a primary frontend development role for core modules, including automated invoicing and financial analytics dashboards.

  Tech Stack: Angular, Spring Boot, Bootstrap, MySQL, Angular Material, JasperReports.

EDUCATIONAL QUALIFICATIONS:

- **M. Sc. In CSE, PMSCS, Jahangirnagar University (JU)**
  CGPA: 3.23 out of 4.00 **|** Passing Year: 2023
- **B. Sc. In CSE, American International University- Bangladesh (AIUB)**
  CGPA: 3.74 out of 4.00 **|** Passing Year: 2021.
